Andrew

October 7th, 2015

Dear ~~President Petter~~:

SFUFA would like to express its disappointment at the decision to withdraw health benefits from TSSU members as of the end of October.

We appreciate that bargaining is a complex, nuanced, and at times, difficult process. However, the use of such punitive measures will not encourage productive bargaining, and is likely to stand in the way of any improved future relationship between the TSSU and the University. We urge you to reconsider this decision and redouble your efforts to secure a negotiated collective agreement with the TSSU.

Sincerely,

Neil Abramson
President, SFUFA
